

**FOSKOR (PTY) LTD**  
**REG. NO.: 1951/002918/07**

**EXPRESSION OF INTEREST**

**Background**

Foskor Richards bay Division has two Phosphoric acid plants based on Di-hydrate Process Technology from Prayon Rupel Technologies, Belgium. To further improve Phosphoric acid recovery efficiency and reduce utilities requirements, Foskor is exploring option to convert manufacturing process of one of the Phosphoric acid plant to Hemi-Di-Hydrate Process.

Expression of Interest is invited from the reputable organizations who have successfully executed such projects and are in the business of supplying above technology in South Africa as per the following requirements;

**Work Description**

**Proposal for the Design, Basic Engg., Detailed Engg., Supply, Construction, Installation and Commissioning of all systems required to upgrade the process from present Di-hydrate to Hemi-Di-Hydrate.**

**Reference No.**

**FT164/10/EM**

Interested agencies are required to submit their company's profiles along with comprehensive references of similar projects undertaken worldwide.

Submissions are to be clearly marked as per the following:

**Expression of Interest**

Hemi-Dihydrate conversion in Phosphoric Acid Plant  
Reference No. FT164/10/EM
