## **SALE OF USED HDPE PIPES FROM RECLAMATION YARD**

This tender includes all the old and used HDPE pipes that have been removed from the plant during maintenance and / or that are no longer required in the plant. The HDPE pipes that are included in this tender will be free of radiation, but may still contain a certain amount of scaling.

The tender will involve the following :

- All stubbs and flanges will have to be cut off HDPE pipes on site at Foskor and will remain the property of Foskor.
- The work will be conducted within the Reclamation Yard which is classified as a radioactive area and the necessary medicals will have to be done (more details will be discussed during the site meeting) prior to any work being conducted on site.
- The HDPE pipes that form part of this tender are made up of a spectrum of various lengths, diameters and shapes.
- The estimated tonnage of these pipes is 20 tons.

Any waste that is removed from site during the process will have to be disposed of at a licensed Low Hazardous (H:h) landfill site and a disposal certificate be obtained for this. This all will need to be done at the cost of the successful tenderer.

Any technical queries can be addressed to **Una van Jaarsveldt** on 083-6466-994.
