1. Invitation to tender for stock items via Tara Nawa's website - Longterm.xls file on www.webportunities.net, closing date/time: 23 April 2010 at 16H00, duration: 12 months

Further to our previous invitation to tender, we wish to advise that for a number internal matters, we were unable to process all the previous responses. At present we have more than 4 000 items that have not been awarded yet. You are invited to submit tenders for all stock item categories as displayed on the website, by the date/time stated above. Previously submitted tenders will remain valid, but you may update those if required. All tenders are to be submitted via the www.webportunities.net website. **Tenders submitted via other means will be ignored.** Please note that even in the case of proprietary items, you are requested to submit your prices via the website. That will enable us to move all tender/contract data to a single system where it can be managed efficiently in a fully paperless, transparent and auditable environment.

Also note that contracts or price agreements currently in place will be honored.

2. Valuable new functionality on www.webportunities.net
