Dear Supplier

Important Notification - New website functionality

We continuously strive to provide more value to users of our website at www.webopportunities.net. You now have the ability to upload additional documents or certificates as per the list below, including their expiry dates. You'll get a warning before the expiry date so that you can either extend the expiry date, or upload a new document.

Then, if you are ranked on our website, any website visitor will see your "Specials" or any of the other documents that you have uploaded. Tenders or quotes that you have uploaded will remain confidential and only visible to the relevant buyer. Click [here](#) to read more about your rank on the website.
